Terms and conditions

Definitions:

cELT - Electrical Testing Laboratories-Canada

CSA - Canadian Standards Association

kW - kilowatt

NGO - non-government organization

UL - Underwriters Laboratories

Eligible applicants: Yukon municipalities, towns and communities; First Nations governments and development corporations; businesses and non-government organizations who own the buildings where Level 2 chargers are installed.

Lease holding eligible applicants must obtain the approval of the building owner to qualify for this rebate.

Eligible buildings:

For municipalities and First Nations governments or development corporations: Qualifying buildings are buildings owned or leased by the municipality or First Nation government or development corporation.

For businesses and non-government organizations: Qualifying buildings are buildings owned or leased by the business or non-government organization and include:

- apartments;
- multi-unit residential buildings;
- commercial buildings; and
- community buildings.

We may request a proof of ownership or access to the land where infrastructure is being installed.

Eligible chargers: Eligible chargers must be:

- designated Level 2;
- equipped with a SAE J1772 standard plug head or adapter with output power between 3 and 20 kilowatts;
- network enabled; and
- certified by UL, CSA or cETL.

A dual-port charger is considered one charger for this rebate.

Products, projects and services – must be installed in the Yukon.

Equipment must be new. Used products are not eligible for this rebate.

A maximum of 20 chargers per building can qualify for a rebate over the lifetime of the program.

Eligible expenses can include:

- equipment;
- labour;
- electrical upgrades (panel, wirings and new poles);
- construction; and
- contracting and professional expenses for installation and required upgrades to supporting infrastructure.

Inspections: If you make electrical upgrades or changes, you must get a final electrical inspection. A copy of the approved electrical inspection report completed by the City of Whitehorse or the Government of Yukon is required and must be included with this rebate application.

Receipts and invoices: Receipts and invoices must be

legible, itemized and include: purchase date, purchaser name, retailer/supplier name, brands and model numbers of items purchased, description and cost. Where applicable, supplied invoices must include the applicant's name given on this form. **Every invoice must have a zero balance owing or be noted as "paid in full" and initialed by the supplier.** Payment will be made to the individual or business identified on this application form. It is the applicant's responsibility to ensure that any other parties that may have participated in the purchase or project are aware of this rebate application and approve of these terms.

Limits to program: This rebate is available until March 31, 2024. This rebate is subject to available funding and may be revised, changed or ended at any time by the Energy Branch. The Government of Yukon does not give rebates that are more than the product, project or service value.

Applications and payment: Receipts, invoices and any required documents must be dated within one year of the date application package is submitted to the Energy Branch. The date of the invoice is considered to be the date of the most recent payment on the invoice. The Government of Yukon is not responsible for lost, late, misdirected, damaged, illegible, incomplete, or ineligible applications. Allow up to 12 weeks for payment. Payment may be done by direct deposit if you have been employed or under contract with the Government of Yukon.

Qualifying products: The Government of Yukon's Energy Branch relies on third-party standards to identify and validate energy efficient products, projects and services. In promoting these standards, the Energy Branch does not endorse any particular manufacturer, supplier, contractor or installer.

Personal information: Collection of this information is authorized by paragraph 15(c)(i) of the *Access to Information and Protection of Privacy Act* SY 2018, c.9 to determine whether you are eligible for a Good Energy rebate, issue payment, and provide you with updates to the Good Energy rebate program. For more information please contact the Manager – Energy Programs with the Energy Branch, Energy, Mines and Resources: 867-393-7063 or toll free: 1-800-661-0408 and ask to be transferred.

Disclaimer / no liability: The Government of Yukon Energy Branch's role is to incentivize the purchase of energy efficient products, projects and services. The Energy Branch is not responsible for product installation, the quality of work or service by a contractor, the completion of projects or the quality of products purchased. The Energy Branch does not guarantee energy saving results by approving an application. The Energy Branch is not responsible for claims by third parties about the Good Energy program, rebates and product eligibility.
